it is a hart

i am reading book 3 right now
hellooo Nik :3

AHHH! Eat Yo Food Bitch , Damn! Whatthe Fuck You Lookin' Crazy For! !!?

;/@/;e e e e e e e e e e e e e

Oh my god Nik I am reading book 3 and Hua Cheng showing Xie Lian around Ghost City is like me showing you Florida

It turns 1 am in a minute

.

You make me so happy

But I'm also extremely idiotic around you

It's a bit embarrassing

But it's really not your fault either. I'm just prone to stupidity

I should be sleeping right now but I'm experiencing schizo auditory hallucinations + I can't stop thinking of you so ... I am now listening to nastyona.....

please stay with me by nastyona is so good but i wish i actually understood the weight of the words being sung. the translation must be accurate, but i also know that these translations will never truly capture the original meaning of those words. well, either way, it sounds so calming: like a newly laid sheet of snow. it works in your levitating :heart: because it's like when rat breaks into a song but they didn't dub it so he just sings it in japanese, except nastyona is korean. do you get what im saying

the lyrics are actually quite endearing. it sucks that i can't even get ahold of them right now but i remember the basic plot of the song and it's good enough for me

it's 4 am. i'm going to try to sleep again. sorry for staying up so late without you. we should both get better sleeping habits soon

I came back after 20 minutes to tell you that I'm madly in love with you and the English language will never be fully able to state this, so I'll just have to keep finding songs and drawing things for you and just generally emptying my mind even more so the only thing that can occupy my thoughts will be you. I know you feel the same way, don't worry. OKay . goodnight for real.

I CANT STOP HEARING WALKING IN MY SHOES DEPECHE MODE ITS ALREADY 12 AM

Yo I just finished book 3. Can't wait to see wtf happens in book 4 fr! :sob:

Mfw I spend 15 consecutive hours with the lol I'm great to be able to spend time doing something so casual with you every once in a while. Also wow! What a fun 2 hr holiday that was!! Please do come back to Disneyland soon :pray: :heart: :smile: I've rented the entire palace of versailles for us this spring. I have decided we will be playing irl doors in the palace.

Ummm. My gods. I hope my voice isn't too annoying. I'm not very good with speaking.

Wow.. the cockroaches are looking really different...

I'm telling you to sleep earlier and save your health and sacrifice a few hours of talking with me late into your AMs so you can have a deep sleep and clean out your brain, generally be "well-rested"... and then I start dying and missing you so badly and losing it and. Cursing Pangea. Ah well at least you have today off. WE ARE VISITING ESPANA!!!!!!!!!!

WAHHHHHHHHOOOOOOOOO!!!!!!!!!!!!

When I first met you you probably hated or cringe at the person you were back then but I still think of all versions of you and I love you for all of it And I will continue to be awestruck by your autistic personality (although there's much more to it than that too [and I can write so much about it but maybe another time because I want to talk about something specific right now] but youre just very silly and I enjoy listening to you always) and I want to share new things with you so badly. When I miss you I think thats absolutely crazy because that's like wow you're real. Youre not a dream and youre not disappearing anytime soon. Yes there is an ocean between us but somehow your presence is so powerful it impacts my life from over here and I can miss you so easily and I can get distracted by you so fast. I used to be a loser too and I think I still am but back then I was just awful Id try to learn about everything for no reason with no passion at all aside from wanting to fill a void. I know you were genuinely scared that I didnt care about anyone and that is a "fear" I had too but meeting you has changed that and at the very least I can care about one person. I am working on it because I want to be the best version of myself for you. I see you everywhere in my life in things

that I want to experience with you, want you to see, or want to give to you. And the bad stuff in life makes me all the more encouraged to work hard to be with you. I dont want to worship you Or anything or mourn you as if you were dead. I just want you to live. And I want to talk with you like youre a living person and more importantly someone that I love so much. Hahaha "You're just a cherished person in my life and I don't know why." Hahahaha I would love to know why too. At the risk of being homophobied: I want to kiss you so badly and put my face into the crook of your neck and we can cuddle and pirate saw 10. That's so silly of me to be thinking these things isnt it hahaha isnt that silly bahhh I should be exterminated and exorcised for cases of the yaoi ghost possessing me. BAHAHHA im watching Spongebob with my sister rn and im actually laughing at the show. You make me so happy and I actually look forward to things in life Ahelp HELP PATRICK JUST ASKED SPONGEBOB TO CUT OFF HIS LEG WITH A SAW. Its as if the entire world knows we're in love and theyre showing all of these things to bully us because we're the only ones that didnt know. Im serious. Youre everywhere I look aahhhhhh. Youre everything that exists to me. Not an exaggeration I'll always come back to you after straying to stupid thoughts like League. And the only time this isnt true is im fighting for my life writing a 6 paragraph essay in 40 minutes. Youre quite literally the reality of everything. I cant believe you said youd want to spend the rest of your life with a fucking loser like me oh my god I just love you so much its so unfair I want to kiss you so badly UAGHHHH

Things angel said to me: "If Nik is British why doesn't he have a mustache?" (Talking about Bnnuy)

"Is he 20% more British than the British people?" (Talking about you)

"Nik is from a factory? They make Niks?" (Talking about Bnnuy) I started laughing after being asked this

"Does he eat croissants everyday?" (Talking about you) I had to clarify she was thinking of French stereotypes

"Why does he have eyelashes?" (Talking about Bnnuy) I had to clarify all humans have eyelashes to keep dirt out of their eyes. As for Bnnuy's eyelashes, I said that it's for cuteness

"Did he make a house with Warped Wood on Minecraft?" (Talking about you) She remembers the Breaking Bad RV! I said yes

"Why is he so small and pink?" (Talking about Bnnuy) I said "I think he is a plushie :heart:"

"How tall is Nik?" (Talking about you) I made a vague gesture that was slightly higher than my own height. She was baffled.

"I need to sneeze let me sneeze outside of your room sorry Covid-19." (Talking about sneezing)

She seems fascinated by your existence. Also she kissed Bnnuy on the cheek and is at a truce with him for now until further notice. Yaay
